

# Great People Inside – using technology to make assessments simpler, more accessible and cheaper to use

Great People Inside offers the only fully customisable assessment platform available today.

## **Preset or fully customised templates from library of 71 measures**

You can select from a range of preset assessment templates or build your own templates from 71 different measures (we call them Dimensions) across 3 areas – Behaviours, Cognitive and Interests. These can be used in any combination to create a single assessment. You can download the full list of Dimensions from our website.

## **Duration, content and complexity decided by our client**

Assessments can be as short as 10 minutes or as long as 60 minutes (or even longer) – whatever suits the need best. You choose the duration, content and complexity **and there is no charge for customisation.**

## **Benchmarks created from client's top performers**

The benchmarks used in Great People Inside assessments are created from **your** top performers. You know who they are. We'll identify other people just like them.

## **Platform is totally accessible**

Assessments can be completed on any device, anytime, anywhere.

## **Rapid reports in plain language**

On completion, reports arrive in the inbox of the nominated person within 5 minutes. Reports are written in plain language with no 'psychobabble', making them usable by line managers with limited training. You can download a Sample Report from our website.

## **Connects to Applicant Tracking System**

Our platform will connect with most major Applicant Tracking Systems. It will take instructions from, and deliver results to, that ATS. The same hyperlink can be sent to all candidates, minimising the work required by Talent Acquisition.

## **Branded Account and Reports**

Your account on our platform, and the reports you download, can be branded with your logo and brand colours.

## Multiple pricing plans – all great value for money

Great People Inside offers 'Pay as you go' (credit purchase and use for occasional users) and Unlimited Use pricing (for regular users). Unlimited Use means you can use as many assessments as you require within the group of employees our agreement covers. Regardless of the pricing plan that suits you best, Great People Inside will usually offer the cheapest assessments in the market today.

## Summary

In essence, Great People assessments are **Simple, Affordable, Accessible, Flexible and Understandable** using technology to offer high-end assessments at very competitive rates, without losing any of the scientific rigour required in such assessments.
